

Test Drive the NEW Damage Repair Estimator On-Line

Register for a FREE 30-day Trial

For more than 30 years, *The Damage Repair Estimator* by Tony Yerman, has offered RV dealers a centralized source for average time and cost of making RV repairs and purchasing RV parts. A growing source of service department revenue comes from insurance company reimbursements for collision, storm, and vandalism repair, so it's important for RV service departments to be able to prepare consistent, data-supported, claim estimates for insurance companies and RV owners. That's exactly what *The Damage Repair Estimator* is designed to do.

Now, the new, subscription-based, online version lets you create customized, detailed estimates of repairs. Find out if it's right for your service department by signing up for a free, no-obligation, 30-day test drive of *The RV Damage Repair Estimator On-Line*. After the test drive, pay a monthly maintenance fee of only \$120.00 per user.

For more information about the online product, or to order your FREE Trial, call 440-336-0703 or send an email to wrcamp1@aol.com.
